Q34 - We welcome your written comments below. What is something/are some things that the instructor does well, e.g., something you hope that the instructor will continue to do in the class in the future?

Faculty:	Kim, Jungeum
Response Rate:	58.82% (10 of 17)

1	The instructor clearly explains what we will be working with and explains through how to do the material well before we start our lab. The instructor also is very helpful when I have questions over the material.
2	The instructor always came to lab prepared and full of energy. The instructor made the lab section interesting and made the material easier to comprehend.

3	She is very nice and welcoming to students.
4	She is very helpful. When I have problems, she always help immediately by showing the PPT. In this way, I can learn the equation and concept faster than explaining totally by words. All in all, she is very patient, gives grades quite unbiased and treat students equally.
5	She is always so positive and seems so happy to help. Being in her lab was always a great start to my Friday.
6	Kim is very sweet and encouraging to students and always willing to answer questions.
7	Jungeum Kim is a wonderful teacher and instructor, and made me look forward to my statistics lab at 8:30 AM every Friday.
8	I feel like there could be more direct ways to answer questions that don't waste valuable time needed for doing the lab
9	Great Lab TA.
10	Enthusiastic, one of the best people I've ever met!

Q35 - Make a suggestion(s) for improving the course (a criticism alone is not helpful; tell your instructor how you would fix any problem).	
Faculty:	Kim, Jungeum
Response Rate:	41.18% (7 of 17)

1	Try to explain when we have questions more clearly/quickly!
2	The only thing I would improve in this course is the amount of time given to complete the lab assessments. Some of the assessments were time consuming and 50 minutes in-class did not seem like enough time, in my opinion.
3	The language barrier is definitely present and makes learning from her difficult. This is a difficult problem to fix, as second language accents are usually very difficult to correct at this stage in life.
4	I would suggest giving more preparation in how to do the lab before the actual day. Doing the math part is not that bad but figuring out how to work SPSS is the hardest and most time consuming part of the class
5	I have no recommendations for her.
6	I do not have any suggestions for improving this course.
7	Can't think of any.
